

SPOT Gen4

Global Satellite GPS Messenger

SPOT Gen4 gives you a critical, life-saving line of communication when you travel beyond the boundaries of reliable cellular service. SPOT Gen4 lets family, friends, and colleagues know you are OK, or if the unexpected should happen, sends your GPS location to emergency responders all with the push of a button. Add this rugged, pocket-sized device to your essential gear and stay connected wherever you play or work.

SPOT devices deliver affordable, reliable, location-based tracking, messaging and life-saving SOS technology to hundreds of thousands of users around the world 24/7.

Enhanced Tracking Services

Custom Tracking Rate

SPOT Gen4's customized tracking allows you to change the rate tracks are sent to 2 ½, 5, 10, 30, or 60 minutes. Extreme Tracking upgrade is required for 2 ½ minute tracking.

Motion-Activated Tracking

A vibration sensor tells SPOT to send your GPS location when you are moving and to stop when you do. This conserves battery power and avoids sending duplicate tracks.

Continuous Tracking

SPOT Gen4 will send track messages until you turn off your SPOT. No need to reset after 24 hours.

Features

Help/SPOT Assist

- Request help from your colleagues at your GPS location or ask for help from professional assistance organizations.

Track

- Automatically send and save your location and allow contacts to track your progress using SPOT My Globalstar.
